

# Air Compressors, dryers, vessels and part

## Oil free piston compressors

VanDeurne Professional oil-free piston compressors

VanDeurne compressors are exclusively produced in the Brainport region - the Netherlands.

This professional oil-free piston compressor has a very low noise level. The compressor can be used in any workshop. This compressor is also very suitable for dental or medical use. If provided with extra filtration and/or drying. In an oil-free compressor, the air does not come into contact with oil during the compression process. This means that an oil-free compressed air system delivers exactly the same air as is drawn in. Because no oil is involved at any point in the compression process, an oil-free compressor is the perfect choice for companies in the food or beverage industry or for production processes where there should be no risk of leakage.

VanDeurne compressors are developed and produced in Deurne (NL).

The VDOF1550 is a professional oil-free piston compressor for the demanding user

- Very low noise level
- Equipped with vibration dampers
- Industrial quick release couplings
- Parts available
- Galvanized boiler
- Quality pressure regulator

TECHNICAL DATA	
Boiler capacity	50 liter
Operating pressure	0-8 bar
Maximum pressure	10 bar
Power	1.5 Kw/ 2PK 230/50hz/60hz
Voltage	230V AC
Length, width, height	850 x 360 x 680 mm
Cylinders	2, single stage
Sound level	low
Speed	1420 at 50Hz 1720 60hz
Suction capacity	181 l/min
Effective capacity	150 l/min at 8 bar
Boiler	yes - galvanized
Oil-free	yes
Wheels	no
Max. load	50%
Weight	35 kg
