

Pneuparts - end cap

Chrome-nickel-molybdenum stainless steel 1.4401(EN10088).

Pneuparts system pipe/pipe is suitable for closed installations in which corrosion is not an issue. For applications, such as compressed air, these system pipes come in a stainless steel (RVS) version.

Safe and durable connections are the most important goal in during installation of a compressed air system. In addition, quick and easy assembly is important for the installer.

Reliable: By pressing the press fitting and pipe, the required mechanical strength is achieved. Permanent hydraulic tightness is obtained through the springy action of the O-ring.

Material:

Chrome-nickel-molybdenum stainless steel 1.4401(EN10088).

Diameter (D) mm:

15 - 108

Length (L) mm:

23 - 38
