

Ball valves with venting

Pneuparts model series

up to 25000 l/min

Materials:

Body: PA 66 GF60, cover: POM, seals: NBR

Temperature range:

-10°C to +50°C

Media:

Oiled and unoled compressed air, neutral gasses

Advantages:

- Easy assembly of single components within a model series using coupling kits

Input pressure:

0 - 16 bar (model series 0: 0 - 12 bar)

Function:

3/2way shut-off valve with captured exhaust air. In a closed state, it can be locked using a padlock VHS 20.

Scope of delivery:

Ball valve including silencer in exhaust thread

ATEX:

Operating material without its own potential source of ignition in accordance with Directive 2014/34/EU (not model series 0)
