

# Solenoid coil

MA22

## DIN B connection

### DESCRIPTION

Coils for valves are essential components that ensure your valve operates correctly. They provide precise flow control and proper sealing, preventing leaks and malfunctions. Our coils are compatible with various valve types and made from high-quality materials for long-lasting performance. Whether you need a replacement coil for maintenance or repair, here you'll find the right quality at competitive prices.

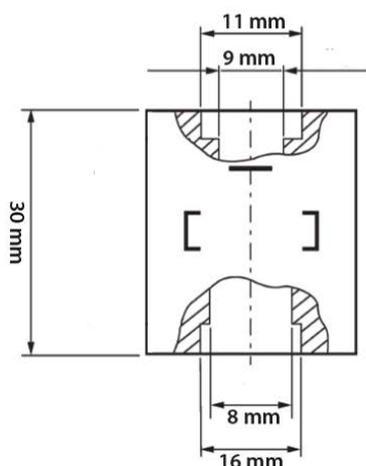

### KEY BENEFITS:

- Optimal flow control and sealing
- Compatible with multiple valve models
- Durable and wear-resistant material
- Easy to install

ARTICLE CODE	VOLTAGE	CONNECTION	AMPERE	POWER
SCSV24DC	24 V DC	DIN B	125 mA	3W
SCSV24AC	24 V AC	DIN B	200 mA	5VA
SCSV110AC	110V AC	DIN B	45 mA	5VA
SCSV230AC	230 V AC	DIN B	22 mA	5VA
SCSV24DCEEX	24V DC EEX	DIN B	125 mA	5 W
