

## Technical drawings

|                             |                                             |
|-----------------------------|---------------------------------------------|
| MAT (Material)              | Zinc coated steel body sintered bronze bush |
| D3 (D3)                     | M8                                          |
| W (W / mm)                  | 14                                          |
| L3 (L3 / mm)                | 16                                          |
| A (A / °)                   | 0                                           |
| D ( $\varnothing D$ / mm)   | 8                                           |
| D1 ( $\varnothing D1$ / mm) | 10.4                                        |
| C1 (C1 / mm)                | 9                                           |
| B (B / mm)                  | 12                                          |
| D4 ( $\varnothing D4$ / mm) | 12.5                                        |
| D5 ( $\varnothing D5$ / mm) | 16                                          |
| L5 (L5 / mm)                | 5                                           |
| L7 (L7 / mm)                | 13                                          |
| H1 (H1 / mm)                | 36                                          |
| L4 (L4 / mm)                | 48                                          |
| D2 (D2 / mm)                | 24                                          |
