

Bulkhead assembly

(not sealing)

Application:

For a quick and high safety coupling of several pneumatic hoses and multiple hoses. Cost efficient and compact design. Flat installation dimensions for bulkhead assembly.

Materials:

Body: aluminium,
union nut and locking nut: POM,
seals: NBR

Temperature range:

-20°C to +70°C

Operating pressure:

-0,99 to 12 bar

Note:

Plugs and sleeves can only be coupled together if they have the same number of lines.

Advantages:

- Flat design
- Sleeve equipped with bulkhead thread M 50x1.5 (max. bulkhead thickness: 5 mm)

Multiple couplings, bulkhead assembly

Article code	Hose	Number of ports	Weight	Version
