

With hose tail

ITEM DESCRIPTION

Euro-profile quick couplings offer standardized compatibility and quick, easy connection, making them widely used in industrial and professional applications such as automotive, manufacturing, construction, and agriculture.

SPECIFICATIONS

Material:

Housing: Steel (sulfur), electrically galvanized
Ball cage: Steel (sulfur), electrically galvanized
Valve: POM
Retaining ring: Steel (sulfur), electrically galvanized
Balls: Hardened steel
Seals: Nitrile rubber
Springs: Stainless spring wire

Thread:

G 1/4", G 3/8", G 1/2"

Max. working pressure:

25 bar (363 psi)

Max. Airflow:

2240 l/min (79,1 cfm)

Burst- pressure:

75 bar (1088 psi)

Temperature Range:

-20° / +60°C

Flow diameter:

ø7,8mm (0,31")
