## PU Food Quality

### ITEM DESCRIPTION

**Material:**

Internal: Thermoplastic rubber  
Reinforcement: Polyester  
External: Wear-resistant Polyurethane groen

**Temperature range:**

-15 °C to +60 °C

**Working pressure:**

20 bar

**Hose length:**

Price per meter, 25, 30, 50, 60 and 100 meters

The Ragno PU Food is a high-quality, three-layer hose specifically designed for safe transport within the food industry. Thanks to its polyurethane inner liner, the hose is odor and taste-neutral while offering excellent resistance to oils and fats. The combination of a polyester reinforcement and a TPR outer cover ensures high pressure resistance and extreme flexibility, even at low temperatures. Furthermore, this hose is up to five times more abrasion-resistant than standard PVC alternatives and complies with the strictest European food safety standards.
